# UNIVERSITY OF ILLINOIS URBANA-CHAMPAIGN FACULTY

## **JULIA SHAPLAND**

*Academic Director of  
Business Living Learning  
Community (BLLC) & Senior  
Lecturer of Accountancy*

## **ADEL IBRAHIM, PH.D.**

*Lecturer of Accountancy*

## Program Topics

### **MANAGERIAL ACCOUNTING (10 HOURS)**

This course introduces accounting as an information system, introduces/discusses financial accounting as the system that accountants use to communicate information to external users; and introduces/discusses managerial accounting as the system of information that internal users (managers) employ for decision making.

### **ACCOUNTING CASE ANALYSIS (10 HOURS)**

This course further develops the student's understanding of accrual accounting, the goals, and objectives of financial reporting, the information needs of end-users, the qualities of useful information, as well as the financial statements and financial statement elements.

### **TA-LED DISCUSSION SESSIONS (10 HOURS)**

A UIUC graduate student will lead discussions and answer questions during reading week and seminar week. Readings and discussions will further the students' knowledge and understanding of the course content.

### **Co-Curricular Sessions (2 HOURS)**

Enriching students' experiences by providing interactive resources for planning their overseas U.S. education.

- Q&A with PhD student: graduate applications & research skills; writing academic research reports
- Graduate College: how to be a successful graduate student
- Career Services: intercultural communication and personal branding
- Program recognition & learning outcome showcase, led by University of Illinois & GET staff

There will be an additional 3 hours combined for technology testing, program orientation, and the program closing ceremony.

## Program Details

Students must be entering second year of college or later. Instruction equips students with preparation to complete projects.

Students are expected to participate in live discussions and problem solving during each live class session.
